New Life

is given by using Brown's Iron Bitters. In the Winter it strengthens and warms the system, in the Spring it enriches the blood and conquers disease, in the Summer it gives tone to the nerves and digestive organs, so aids it as to enable the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's Iron Bitters ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

> *Gentlemen:* I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for Brown's Iron Bitters, and *insist* on having it. Don't be imposed on with something recommended as *"just as good."* The genuine is made only by the Brown Chemical Co. Baltimore, Md.

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Pain in the Head, Fullness after eating, Aversion to exertion of body or mind, Impatience, Irritability of temper, Low spirits, Nervousness, Sleeplessness, Dizziness, Fluttering at the Heart, Dots before the eyes, Highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. A Little Story with a Large Moral

---One Man who Knew his Own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter, "No, my dear, we haven't any red flannel, but we have some first-rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLASTERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist genially, "but we have lots of plasters just as good. There is Allcock's, the Capsicum and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that some time ago, for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest set of the proprietors of some of them being this: That they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

SHOULD VISIT THIS COAST.

It will be a pity, we think, says the Salt Lake *Tribune*, if President Arthur finally concludes not to come west this Summer. He should come across the country by the old Overland route to San Francisco and return by the Northern Pacific. He would be but two days cut off from telegraphic communication. Indeed, he need never be out of reach of the telegraph. He could make the trip easily in three weeks, and he and the country would be better for it. He knows there is a country here, but he has no conception of its magnitude; no real knowledge of certain of its wants; no fair impression of its people. If he could come by Kansas City, Denver and Salt Lake, and thence to San Francisco he would begin to realize that it is a great deal of a thing to be President of the United States. From there he could look around California for a week profitably. If he did not wish to try a sea voyage he could go up to Redding, and be carried over the Siskiyou mountains, 200 miles, in a carriage. It would be the grandest ride, through the grandest region he ever traveled, and he could be in telegraphic communication with Washington all the time. From Roseburg to Portland, down the Willamette, is through the garden of the continent. From Portland he could visit the Sound ports and return in two or three days, and then starting up the Columbia, and touching at the prominent points, could reach St. Paul in a week comfortably, and then proceed to Washington a wiser man and abler President. He ought to make the trip.

EDITORIAL NOTES.

A collector of autographs once wrote to General Sherman for his autograph and a lock of his hair, and received the following reply: "The man who has been writing my autograph is discharged, and, as my orderly is bald I cannot comply with either of your requests."

The recent Richmond duel indicates that the days of chivalry (?) are not entirely of the past. The St. Louis (Mo.) *Gazette* expresses unfeigned delight at the result of the duel, and savagely says: "Now for that little weasel, Mahone." The ebullience of southern blood seems to be as apparent as in ante-bellum days.

The *Daily Exchange* proposes a retaliation upon England, for their shipment of paupers to this country, by sending a few ship-loads of our festive Apaches in return. If the English will give our emigrants a half a chance, we can assure them they will never become a public charge. They would probably make the highlands of Scotland their home station.

Boston claims to be the second banking city in the Union, outranking Chicago and Philadelphia. It has 53 national banks, with a combined capital of $50,450,000, and a total outstanding circulation of $30,431,182. The city has also 82 banking establishments, having a capital of $7,938,200; and four State banks, with a capital of $1,850,000, and 14 savings banks, having deposits amounting to $64,137,140.

Some one who has been through Colorado, writes to a Philadelphia paper that the cow-boy is as innocent and complacent as a billy-goat feasting on tin cans. He finds that this interesting genius quarrels only when quarreled with, and that he does harm only to the perpetrators of crime. The correspondent must have got his ideas from a cow-boy through a binocular of tremendous power.

Joaquin Miller, the ultimate seas-of-the-sundown-west poet, is severely hauled over the coals by a writer in the San Francisco *Chronicle*. The Sacramento *Bee* says: "The rhymster of the Sierras had been writing for the same paper a number of sketches of his life in the wilds of Oregon and northern California, and represented himself as a great hero during the Snake campaign. The second party objects thereto, and shows that the long-haired Joaquin was as timid as a woodland hare. Thus do the lightning shafts of truth raze to the ground the green-lattice work cottages of fancy."

In 1882 there were 8,000,000 barrels of salt consumed in the United States. Nearly three-fourths of the quantity was made in this country, Michigan alone producing about 3,250,000 barrels. Salt was first made at Syracuse by white men in the year 1788, when the annual product was 100 barrels; in 1880 it was 1,600,000 barrels. The first salt was made in Michigan in 1860, when the annual product was 400 barrels; in 1877 it was 1,661,000 barrels.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

A Bungling Decision.

CHICAGO, July 13.

Commissioner Evans is in another pickle. The rock and rye decision, which was made upon casual observance from the head of the tobacco division, is likely to lead to immediate and enormous claims for repayment of taxes heretofore unproperly levied. Rock and rye has been manufactured for years, and sold under proprietory stamps. Commissioner Evans has now decided that it is a beverage, and consequently proposes that the tax should have been that of wholesale dealers in liquors or rectifiers—that is $200 a year, instead o the proprietor's stamp tax of four or five cents per bottle. The difference between these seems to foot up. For a series of years it will be very great, and the opinion is expressed by experts in Commissioner Evans' office that this difference will, under the recent decision, prove a valid claim against the Government.

A Distressing Tragedy in Illinois.

DWIGHT, July 13.

Andrew White, a wealthy farmer living near this place, was recently placed in a private insane asylum, owing to the impairment of his mental faculties, caused by too close attention to the details of his business. He there became strongly possessed with the hallucination that his wife and children desired to rob him of his property. He escaped from his retreat a few days ago, and proceeded to his home, and arriving there in the middle of the night, watched till morning, when he called to his wife to come and welcome him. His wife and two children, aged 10 and 12 years, came at once, and he allowed each to caress him. He then drew a revolver and shot and instantly killed his wife, and followed this by murdering his two children. He then made the tragedy complete by killing himself.

An Unsuccessful Abduction.

MINNEAPOLIS, Minn., July 13.

Tillie Parry, a young woman alleged to have been abducted from the house of her friends in Syracuse by her mother a few days ago, arrived today. Her mother remained in St. Paul. The girl was met at the depot by T. W. Chamberlain, a young man, in a carriage, and taken to the residence of a friend. A marriage license was procured and the marriage ceremony performed last evening. It is said that the young woman, after recovering from the surprise at her capture, put on a submissive air, and came with her mother without resistance, until after she had crossed the Wisconsin line, when she asserted her independence, and gave her mother to understand that she proposed to take care of herself, with the result as above.

John C. New on the Next Convention.

WASHINGTON, July 13.

John C. New, Assistant Secretary of the Treasury and a member of the Republican National Convention from Indiana, has been interviewed regarding the place of holding the next convention. He strongly favors Indianapolis, and gives many reasons why that city should be selected. He predicts that Joe McDonald will be the Democratic nominee for the Presidency, and that something will have to be done to counteract the influence of his popularity and candidacy if Indiana is to give her electoral vote for the Republican nominee.

Stone Quarry Accident.

LEMONT, July 13.

The Eureka stone quarry, four miles south of this city, was the scene of another tragedy yesterday, caused by the falling of a high derrick while raising a block of stone weighing three tons. One of the supporting wire guy ropes slipped, causing the derrick to fall among a crowd of 50 workmen, four of whom were caught directly under the timbers and instantly killed.

Tired of Life.

CHICAGO, July 13.

Last evening, Lizzie Robinson, a niece of Ralston, the San Francisco banker, made a second attempt at suicide. Early last night she was found lying in the basement of a building at 192 South Clark street, stupefied and almost inanimate. A bottle partly filled with laudanum was clenched tightly in her hands, and when removed to the hospital it was supposed her case admitted of no remedy. She revived, however, and at 2 o'clock this morning, though not yet out of danger, the chances are said to be in favor of her recovery. Lizzie is about 40 years of age, and for the past five years has been an inhabitant of Clark street. For the past two years she has lived at 294 South Clark street, a place until lately, frequented by women of the town.

An Appointment Revoked---Indian Matters in Washington Territory.

WASHINGTON, July 13.

The Commissioners of Internal Revenue, not having received the resignation of C. M. Horton, Internal Revenue agent, as requested, were directed to revoke his appointment.

Jas. Irwin, Indian agent at the Shoshone agency in Washington Territory, telegraphed Commissioner Peice to-day that the Uintah Indians are passing into the Shoshone agency in great numbers, no less than 50 lodges having already arrived. Commissioner Price replied, directing the agent to order the Indians to return to their reservation and not to issue rations to them from his supplies.

Respectfully Declines.

BOSTON, July 13.

Special Revenue Agent Horton, yesterday, sent the following telegram to Commissioner Evans: "Recognizing your personal kindness, I would very much like to relieve you of embarrassment, but cannot comply with your request for my resignation, as it would be in effect a confession of guilt; and I am not guilty. I would prefer dismissal, because I cannot afford to lose my character and employment at the same time."

(Signed.) C. C. HORTON.

Death by Yellow Fever.

DECATUR, Ills., July 13.

Information has been received here of the death, by yellow fever, of General Jesse H. Moore, United States Consul of Callao, Peru. He was a Colonel of volunteers in the war, and served two terms in Congress from Illinois. He had been in the consular service three years.

Reported Capture of Murderers

DES MOINES, July 12.

A report reaches here to-night that two men have been arrested at Coon Rapids as the murderers of Clinghan at Polk City Tuesday night. Telegrams have been sent to the police of the city asking for parties to identify them. If they should be identified they will undoubtedly be lynched.

A Powder Mill Explosion.

WILMINGTON, July 13.

This morning 2,500 pounds of powder exploded in the press-room of the Dupont Powder Works. Thos. Pearl, foreman of the press-room, and Patrick Haley, laborer, were killed, and Alex Billingsby, another laborer, slightly injured.

FRIDAY.....JULY 13, 1883

JOTTINGS.

Brier root pipes at Nasby's. Thermometer at 7, 9, 11, 1, 3—72, 82, 86, 88, 86.

The grass crop on the Humboldt, in the vicinity of Elko, is reported by the *Independent* to be unusually good.

C. J. Brookins keeps all the eastern magazines and pictorials and choicest publications. Read 50-cent column.

It is morally certain that if the low prices of those elegant Summer suits at the White House were generally known, there would not be a seedy-looking man or boy in Reno.

As long as A. Lindley & Co. have been in business in Reno, none of their many patrons have ever been heard to complain of the price or quality of their goods. No auction goods at Lindley's.

The wholesale and retail business of Chielovich & Co., on Commercial Row, shows that Nevada people have concluded to sustain home trade. It costs but one bit to sample any article in their line. *

The reason that the meat sold by J. D. Pollard is always found to be fresh, is that he kills every day, and when over a day old, he sells his supplies to the Indians, and begins the day with a new supply. *

The beer brewed by George Becker at the Pacific Brewery and retailed at the Granite Saloon on Commercial Row, is rated by all good judges, to be second to none. About the third glass will convince anybody that George does not try to make beer without barley. *

All thrifty housewives in Reno and vicinity agree that the "Westlake" cooking ranges of Knowles & Bainbridge's are the most perfect ever seen in this market. The saving in fuel will soon pay for one of them, a half-dozen cigar boxes being sufficient to cook a meal.

The Knights of Pythias picnic tomorrow will be a grand affair. Every arrangement has been made to make this the event of the season. Read the programme for the day's sport and list of prizes. Go and have a good time. There will be a large attendance from this section.

The constant stream of customers to and from the store of Jack Everett, corner of Second and Sierra streets, shows that the people have learned where they can get full value for their money. They are always asked to return every article not found as represented,

Business men like Levy Bros., on Virginia street, never allow their stock to get run down or become shop-worn. Whenever any article of dry goods in their store goes out of date, it is immediately boxed up and sent to some locality less discriminating than Reno.

If any of J. D. Pollard's milk customers will say that the milk furnished by him, is not superior to any ever before retailed in Reno, he will not be asked to continue his patronage. Mr. P's., cows do not run upon the common, but are kept upon the very best of pasturage. *

The Tainted Water.

The town water is getting worse instead of better. A GAZETTE reporter took a trip around the reservoir, and found it as clean as a pie plate. There is not a straw or stick in it. The water comes first into a small reservoir, that is used as a settler, and from there into the big one. Mr. Evans has a family at the reservoir, who see that no dogs, Indians or anybody else gets into the water. He says there has been an unusual amount of lumber cut up the river this Summer, and it has filled the river with sawdust. At the same time there was no big floods to wash the old stuff down below Reno, so it all lies lodged between Verdi and points above. The water is low in the river, and it becomes strongly impregnated with the decaying wood. Other parties think the water is tainted by running over a chalk bed, a few miles up, and that it gets part of its bad taste there. If it does, a box flume would remedy that part of the trouble.

A Collision on the C. P.

An accident happened to the eastward bound freight, No. 7, last evening, seven miles east of Reno, by which several persons were more or less injured. The train parted on a heavy down grade, and the rear part, consisting of 10 or 12 cars, collided with the front section, badly damaging the ends of several cars and demolishing their drawheads. Brakeman Place received a severe cut on his upper lip; conductor Seaver was badly shaken up, but not seriously injured. Roadmaster Fitzgerald and section foreman Griffin were slightly injured, the latter's spine was severely wrenched. A Mrs. Johnson, from Wadsworth, was also slightly injured. None of the cars left the rail. The wreck was soon cleared up and everything running along as usual.

We All Have Our Troubles.

The C. P. baggageman's truck collided with a knot-hole in the platform this morning, causing a promiscuous scattering of trunks, valises, hand-boxes, etc. The truck was piled full and to a considerable height. When the pile struck the platform a bystander remarked that he never saw a baggage-master handle trunks so carefully before. Damage nominal.

A NEW FIREARM.

A Gun Which Will Pierce one and a Half Inches of Iron and Four and a Quarter Inches of Wood.

An accelerating gun, the invention of J. H. Stewart of San Francisco, is attracting a large amount of attention of military men. The invention, or new method of applying force, consists of a newly-devised breech, constructed upon a philosophical principle, and which admits of a powerful accelerating force being applied to the projectile before it leaves the mouth of the gun. The results thus far obtained by crude experiments are really astonishing, as the appended summary of its workings show: The small gun—length 22 inches, weight 7 pounds, 50-100 calibre, projectile, conical steel bolt, velocity about 3,000 feet per second, charge, about 200 grains No. 2 sporting powder; unobstructed range, three miles. Experiments at point-blank range, viz.: Target No. 1 — Projectile passed through a one-inch bar of iron, and at the same time through 16 inches of wood placed behind it. Target No. 2 — Projectile passed through six pieces of one-quarter inch boiler plate, with alternate pieces of wood, same thickness, all firmly bolted together, this target thus consisting of one and one-half inches of iron and one and one-quarter inches of wood. The projectile at the same time passed through three inches of wood placed behind the target. The iron of target No. 1 is penetrable at the distance of one mile. The composite target No. 2 at a distance of 300 yards. Target No. 3 — Projectile passed through a one-inch bar of steel and penetrated fully one-half an inch into a bar of iron placed behind the target. The large gun —38 inches in length—gave equally as fine results. The principle of construction is simple, and is applicable to muzzle-loading as well as breech-loading guns. They can be loaded, discharged and cleaned as quickly as other guns; the cost of manufacture is only a trifle greater. This gun in construction is just as simple as any other gun ever manufactured.

A Chance for a Picture.

H. W. Macdonald of San Francisco is taking photographic views of interesting places in Nevada. Naturally he has to spend considerable time in Reno, on account of the striking scenery in the vicinity. Mr. Macdonald is really a fine artist, and has a reputation wherever he is known for his work. He has taken the Court House, the Sister's Seminary, Mr. Lindsay's residence, Mr. Lindley's store, Gallatin & Folsom's corner, Mr. Hawcroft's, Mr. Shoemaker's and Mrs. Schaeffer's residence and other places of interest, beside some large groups out of doors, and several interior views of stores, etc. Mr. Macdonald has fine instruments and does excellent work. He has taken a great many prizes for outdoor work in different counties in California, and has always stood at the head of his profession. Any one wanting views to send back to the old folks can get them during his stay here at very reasonable prices.

Esmeralda's Court House.

Plans and specifications for the new court house and jail at Hawthorne, can be seen at the County Clerk's office at Hawthorne, at the office of R. C. Mattingly, at Pier 11, Stewart street, San Francisco, and at the store of E. B. Rail, in Carson. Parties to whom the contract shall be awarded are to furnish all material, and are to diligently prosecute the work to completion. All bids are to be sealed and addressed to the County Clerk of Esmeralda county, at Hawthorne.

A Double Team.

J. Machamer came up from San Francisco this morning to run one end of the Wine House barber shop. He has a good name among the first-class men below, and he and Nick Hammersmith challenge the State for fine work in shaving and hair cutting. Nick has all the conveniences, and his shop is cool and pleasant. He has nothing else to do but to attend to his shop and try to please his customers. He thinks he knows how to do it, and is going to do the best rustling he has ever done in Reno.

A Good Ranch.

The Evan's ranch in Clover Valley, Humboldt county, is for sale, with its cattle, horses, tools, etc. It is as safe a ranch as there is in the country, having a good climate and abundant protection for young or weak stock. There is every reason to believe that the cattle business will improve instead of ever being bad again, and if anyone has large means, or if a company was made up, they would find this a good investment.

Good Judgment.

John C. Daniels, one of the thrifty and solid ranchers of Mason Valley, with his wife, was in Reno yesterday purchasing supplies. The fact that Mr. D. passed Carson to patronize Reno merchants, shows that he has learned where he can buy the cheapest.

Return of the Excursionists.

This being the last day of life for the Mulcahy excursion tickets, all who had not returned before came up this morning. They all seemed to think they have had a very pleasant trip.

PERSONALS.

George Todhunter, the cattle man, is in town to-day.

Add. C. Hinkson of Sacramento returned home this morning.

Chamberlain fed 60 passengers this morning, bound east and south.

Mrs. M. M. Gaige and daughter of Carson came up from below this morning.

W. L. Preddy, the V. & T. freight agent at Carson, came to town this morning.

D. O. Mills and his nephew, Frank Mills, were passengers for Sacramento this morning.

Hon. C. S. Varian and family will leave Sunday morning on a visit to the lakes for a week.

B. F. Bacon and H. W. Higgins leave with their familes for Webber and Independence Lakes to-morrow morning.

Mr. Sands, formerly a teacher in the public school here, is visiting Reno friends. He is located at Unionville now.

It is learned with regret that ex-Supreme Judge B. C. Whitman proposes leaving Nevada soon to locate in San Francisco.

General John R. Kittrell is a candidate for Congress, and is going to come as near to getting there as good rustling will take him.

Wm. H. Mills, the general land agent of the Central Pacific, vice the late B. B. Redding, arrived from San Francisco this morning.

Evan Williams, the former local secretary of the Crown Point mine, and at present the Superintendent of the Mexican mill, at Empire, was in town this morning.

Dr. Billings, the Carson dentist, arrived from California this morning, accompanied by his daughter who had recently graduated from the Oakland High School and the Commercial College.

Miles constructed in 1882, exclusive of sidings and additional tracks, 10,821. Total mileage of United States railroads in operation January 1st, 1883, fully 120,000 miles of the total 262,000 miles in the entire world, or nearly as many miles of road as in all the rest of the world together.

Men Wanted.

There seems to be a general scarcity of farm hands in the whole western and northern part of the State. Good hands are paid from $2 to $2 50 per day and board. Here is a chance for some of the "working men," who have been hanging around Reno for several months, to get employment at good wages. Long Valley farmers offer to pay fare from Reno for good men.

A Warning.

The Bodie *Free Press* rather more than intimates that unless certain light-fingered gentry go slow they will experience something more potent and disagreeable than a jury trial.

Northern Freight.

An immense amount of freight is being daily shipped from this place to all points in California north of here and east of the Sierras.

He Was Returning to the Capital.

"Well, adoo sur, adoo," was the remark made by Nevada's Governor as he boarded the southern train the other morning.

The Supply Sustained.

Doc Bowman has just received a lot of fine liquors direct from the East, which he will sell in any quantity, large or small. He has some fine old Kentucky whisky which he is willing to guarantee to be the very finest in this State. He has a lot of port wine and brandy, which he warrants pure.

Beef For California.

George Todhunter goes to Oakland to-night with nine car-loads of beef for Haynes, Carrick & Co. Mr. Todhunter will commence his regular Fall shipments next month.

Stock Killed.

Freight train No. 7, which came into Reno from the west last evening, run over and killed two cows about half a mile this side of Verdi.

Church Notice.

Father Kinsley will celebrate Mass next Sunday, the 15th instant, at Verdi, about 8 o'clock A. M., and again in Reno at 11 o'clock A. M.

A Promise Fulfilled.

Governor Adams has at last forwarded the long-promised flag pole to Candelaria.

NEW TO-DAY.

A RARE CHANCE

—FOR A—

LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL IRrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and fifty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle and well broken work horses; also, there will be included in this sale grain headers, eight mowing machines, harrows and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in 1883, and estimating upon the basis of the past experience of increase the band of 1884 will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace:—Township 36 north, ranges 41, 42, 43, 44, east, township 37 north, ranges 42, 43, 44 east; township 38 north, ranges 43, 44 east; township 39 north, range 43 east—Mount Diablo meridian.

Title based upon patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand dollars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, RENO GAZETTE, Reno, for verification of the representation set forth above. Inspection of the stock, lands and other property is solicited.

Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address
